

Dear Members,

As previously announced, informational meetings concerning the potential installation of an irrigation system for the MGC golf course will be conducted in the club house. These meetings which we anticipate will be 1 1/2 hours in length will take place at the following times:

Thursday, July 6 - 6:00 PM

Friday, July 7th - 2:30 PM

During these meetings, the irrigation system plan will be presented along with the financial plan. Club members will have an opportunity to ask questions and make comments.

Please excuse the short notice of the meetings but we believe there will be many members in Maine for the July 4th week and we would like to reach as many members as possible. The meetings are being scheduled both during the day and in the evening to accommodate the schedules of club members.

Prior to the meeting, you may want to familiarize yourself with two reports on the MGC golf course, authored by Tripp Davis and Associates, Golf Architecture. The articles are located on the website under "Welcome Member" and the subtitle "Golf Course Update".

Executive Committee members will be interested in your comments as they will be addressing this proposal at the regularly scheduled Executive Committee meeting on July 12th.

Bill Freeman
